**Prepare for the “Invasion” With Darkotic™ Targets from Birchwood Casey®**

Movies, books and television shows about an invasion of the “walking dead” have gained popularity over the last few years. A whole culture has sprung up on the subject, prompting blogs and discussions about how to prepare in case of attack. The shooting community has recently joined in the fun with discussions about the best gun to have when the “walking dead” show up at their door.

Birchwood Casey now has a line of exciting, fun to shoot Darkotic Targets that shooters can use to practice for the “invasion”.

Two different types of Darkotic targets are available. The first are reactive splattering targets that measure 12”x18” and come in packs of 8. They sell for a suggested retail price of \$13.98. The second group of targets is printed on plain paper and measure 23”x35”. They come in packs of 100 at a price of \$1.98 per each target, making them great for ranges or groups. The 23”x35” size also works great for archery shooters.

Put a little “scare” into your next outing at the range with Darkotic Targets.

For more information, consumers can log onto the Birchwood Casey website at [www.birchwoodcasey.com](http://www.birchwoodcasey.com), write to 7900 Fuller Road, Eden Prairie, MN 55344-2195 or call 800.328.6156.
